I indicated to Mr. Flood that someone (likely me) would respond to his complaint. I would like to close the loop on this with the citizen.

Nevermind, I talked with Alan and he has already spoken to Patrick Traylor about this one. I will give Erin a call back and let her know that we defer to what the state thinks is best as a response to Mr. Flood.

Do we have the original complaint?

Shelly – Can you check with Alan Walts on what he wants us to do. With does not seem to be an NPDES problem but rather a drainage problem. Mr. Flood contacted some in the HQ managers. This does not seem to be an issue we or the state can help with.

Hi, Pat. Since Jenny is out on vacation, I thought I'd contact you with the message I sent to her. Please let me know what you feel is necessary in this case. Thanks, Erin

Subject: Mr. Flood Complaint

Hi, Jenny. Thanks for your phone message. Since there are no new concerns on this issue, and since there are no violations that we have identified after doing site visits (now coming on a year or two old), I am reluctant to spend scarce staff resources on yet another fruitless and unnecessary visit. If you feel a site visit is necessary in order to respond to your management, we will do so. But, they should know the historic situation, that nothing has changed to warrant a visit, and that we have many other things that do require our attention. Please let me know if you feel your management will only be satisfied with a site visit or if a call would suffice (a call with a USEPA person (Pat?), Mr. Flood, and OEPA (probably Isaac).

Thanks,
Erin
